## **DETAILED ACTION**

### ***Specification***

The disclosure is objected to because of the following informalities: The specification is not in the proper order. Note the brief description of the drawings found on page 11. Also note "Patent document 2" on page 2, line 10, is unclear since the specific document has not been cited. Appropriate correction is required.

### ***Claim Rejections - 35 USC § 112***

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1 and 2 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claims 1 and 2 are generally narrative and indefinite, failing to conform with current U.S. practice. They appear to be a literal translation into English from a foreign document and are replete with grammatical and idiomatic errors. Also in claim 1, it is unclear as to the specific method being claimed. A more positive recitation of each method steps is needed.

The term "the crossing " is indefinite as it lacks clear antecedent basis. The recitation "is made less noticeable" is unclear as to what is being compared. Also the term "wide rib" in claim 1 is a relative term which renders the claim indefinite. The term "wide" is not defined by the claim, the specification does not provide a standard for ascertaining the requisite degree, and one of ordinary skill in the art would not be reasonably apprised of the scope of the invention.

*Allowable Subject Matter*

Claim 1 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.

Claim 2 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.

*Conclusion*

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
